

Time and Place: Chapter 84 meets the second Tuesday of the month at 7PM. Except as noted below, the meetings take place at Harvey Airfield in the hangar just West of the office or the Buzz Inn restaurant. The door is on the Southeast end.

Meetings: Guest speakers address about half of the meetings. Recently the owner of an avionics repair station, a retired flight test engineer from Edwards AFB, and the pilot of an around-the-world floatplane flight appeared before the members. The group has plenty of time for hangar flying and the all-important coffee and donuts during each meeting.

In June, the chapter meets outside to look at member's airplanes. Due to the Arlington Fly-in, no meeting occurs in July. In August, the annual picnic takes place; September is "Plans, Pictures and Parts" night while October brings the annual auction of members' surplus parts and tools. The year ends with the Christmas banquet in December.

For 2010: The Chapter has rented a closed T-hangar with meeting space for fair weather. It is on the West end of Building 12 and is #1B. Chapter members may use this space when working on portions of their aircraft project.

Project Visits: The Saturday following a meeting, the chapter visits a member's house, shop or hangar to see his restoration or homebuilt project in progress.

To Join: Complete and detach the application below and bring it to the next meeting — or mail it with a check for \$50 to Nick Gentry, 12124 1st Avenue S.E., Everett, WA 98208. Please make checks payable to "EAA Chapter #84."

Glad to have you with us!

OTHER:

...

Monthly meetings feature guest speakers and lots of airplane talk.

We also visit members' homebuilt and antique projects and have occasional fly-outs.

For the location, date and time of the next meeting, and how to join, see the reverse side.
